

# Kit de presse Uchit

Titre: Communiquer sans interférences

---

## La communication du futur :

Qui ne serait pas intéressé par une nouvelle plateforme de communication et de collaboration, basée sur la technologie P2P de la Blockchain, dépourvue de coupures, d'interférences gouvernementales ou de réglementations ?

Ce projet est mis en œuvre par UCHIT, une plateforme qui promet de révolutionner la façon dont les gens communiquent et collaborent en ligne. De grandes équipes de développeurs, d'artistes, de musiciens et de nombreuses autres personnes pourront constater l'utilité d'UCHIT.

## Comment ça marche ?

Il utilisera la Blockchain Ethereum pour le traitement des transactions. UCHIT cryptera les communications et permettra aux utilisateurs d'interagir dans un système entièrement décentralisé.

Ceci est énorme parce qu'il supprime les intermédiaires et permet aux gens de collaborer directement au sein d'un vaste ensemble d'outils pratiques qui peuvent faire passer n'importe quel projet de la petite taille à celle de sa réussite.

## Le processus de l'ICO :

The UCHIT tokens (UCHT) are the core of the platform rewarding policies.

The concept of earning UCHT is simple. Users are rewarded for some actions as they collaborate or communicate, like selling work templates or assets or responding to team joining requests. UCHT also can be used inside the platform to hire people into teams, request communication or files with another person, buy templates from freelancers, and the list goes on.

With a maximum tokens supply of 712 350 000, the token sale has been divided in three stages before ICO, which start on April 1 and ends on May 31st 2018:

- **Stage 1:** Pre ICO (from May 1 to 30 with a 20% bonus + minimum investment of 0.001 ETH)
- **Stage 2:** Crowd Sale (From June 1 to 30, with a 5% bonus and a minimum investment of 0.001 ETH).

**The exchange rate is 1 ETH =4500 UCHT.**

---

## Vision et caractéristiques du projet:

The UCHIT team always emphasizes decentralization as one of their emphasis. Promising to be the end-to-end solution for personal or professional communication to a range of people that range from families to investors and freelancers. Also a solution for professional collaboration between programmers, artists, and businessmen. UCHIT already has plans to expand their tools.

An example included in the project is a marketplace to find professionals and hire them to work as a team and also find pre-made assets or templates to start your own project.

Think big is also another main character in the UCHIT project. They aim to revolutionize the way the world thinks about communication, with the goal to become the leading file-sharing platform for users all around the globe.

The idea was born in December 2016, but it wasn't until October 2017 that the complete analysis was done. The Platform is planned to be released in its final form in May 2020 with alpha and beta versions in 2018 and 2019. UCHIT team is led by Siddhant Dixit, who acquired the record in the "Children's Book of Records" as the youngest founder of video gaming company. To get this project going, he brought with him his equip from his other company, CRASS Infotech, which is one of the leading ones in the gaming industry in South Asia.

## Vous devez connaître les éléments suivants:

- **Offre totale: 712 350 000**
  - **Symbole: UCHT**
  - **Date de début de l'ICO: 1er juin 2018**
  - **Date de fin de l'ICO: 30 juin 2018**
  - **Prix ICO: 0.19 US\$**
-
